The screenshot displays the Postman application interface. At the top, there's a navigation bar with tabs for Home, Workspaces, API Network, Reports, and Explore. A search bar labeled 'Search Postman' is also present. Below this, the 'My Workspace' section shows a 'New' button and an 'Import' button. The left sidebar contains a 'Collections' section with a '+ Collections' button and a list of collections. A 'Media Authentication API' collection is highlighted, showing its 'Authorization' tab with 'API Key' selected. The main area shows a REST client request to 'http://localhost:3001/login/8' using the 'PUT' method. The request body is in JSON format, containing user details. The response is also in JSON format, showing a successful login with a 200 status code. The bottom status bar indicates the response time is 591 ms and the size is 674 B.
